Full Stack Developer

2017 – 2022

Coovum Smart Systems and Services Pvt Ltd

- Developed and maintained ERP and CRM modules using Angular, Node.js, and MongoDB
- Built robust REST APIs enabling seamless integration across multiple enterprise modules
- Collaborated with business teams to gather requirements and deliver scalable solutions

- Optimized application performance and database queries for improved response times

PHP Developer

2015 – 2017

Subash Technosys Pvt Ltd

- Developed dynamic web applications using PHP and MySQL
- Designed database schemas and implemented backend business logic
- Performed application maintenance, debugging, and performance optimization

KEY PROJECTS

CRM Field Service Mobile Application

IONIC · NODE.JS · EXPRESS.JS · MONGODB

- Built field service mobile app enabling real-time task assignment and live workforce tracking
- Integrated complaint management with warranty and non-warranty workflow support
- Implemented payment tracking and replacement management for technicians, reducing response time

Enterprise Resource Planning (ERP) System

ANGULAR · NODE.JS · EXPRESS.JS · MONGODB

- Architected modular ERP system covering Inventory, Purchase, Store, and Order modules
- Implemented Item Master, BOM, PO, GRN, QC, Stock, and Material Requisition features
- Streamlined inventory tracking and purchasing workflows across the organization

Accounting Module with Tally Integration

MEAN STACK · ELECTRON.JS · TALLY ERP

- Developed complete double-entry accounting module with Ledger and Journal Entries
- Built bi-directional ERP-Tally sync via Electron.js bridge application
- Automated invoice and payment synchronization, significantly reducing manual errors

EDUCATION

B.E. — Computer Science

2014

Annai Vailankanni College of Engineering
Kanyakumari, Tamil Nadu

HIGHLIGHTS

- 10+ years enterprise software experience
- Full MEAN Stack expertise
- Cross-platform mobile with Ionic
- Deep ERP, CRM & HRMS domain knowledge
